-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Applicant's amendment of 10/25/05 has been received and reviewed. Applicant amended claims 1, 3, and 4.

Priority

1. Receipt is acknowledged of papers submitted 12/22/03 under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawashima et al. (Kawashima, U.S. 5,950,248). Kawashima discloses the invention as claimed. Kawashima teaches protective goggles comprising a frame body compositely formed with a rigid frame member 3 and a resilient frame member 2, at least one replaceable lens 1 having an outer circumferential area, and wherein the outer area abuts against the resilient frame member and engages with the rigid frame member so as to be fixed together. The outer circumferential area is provided with a flange portion 12 and a stopping portion 13 on at least a portion of a whole lens circumference, with

the stopping member engaged with the rigid frame member to be fixed together. The lens 1 is extended at a portion 10 to provide a tab portion thereto. The lens is detachable with respect to a combination of the rigid and resilient frame members. Frame member 2 doubles as a face-abutting cushion member formed in one body with and by the resilient frame member. Nose bridge member 7 connects a right side and left side of the frame body together and is formed in one body with and by the resilient frame member.

Response to Arguments

4. Applicant's arguments filed 10/25/05 have been fully considered but they are not persuasive. Applicant has amended claim 1 to include that the replaceable lens is detachable. It is noted that the term "detachable" is a functional term which does not necessarily impart a structural significance to the claim. The claim has not been amended to include further structural language directed to the specific placement of the frame members in relation to the lens. Kawashima meets the newly added claim limitation in that Kawashima's lens is clearly "detachable with respect to a combination of the rigid and resilient frame members". The lens may be removed or disengaged from the frame member 3 and also may be disengaged from frame member 2.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
